## George Mason University

in Brief

## January 2004

Prepared by the Office of Equity and Diversity Services

The annual "Diversity Facts in Brief" is presented by the Office of Equity and Diversity Services at the request of the Board of Visitors' (BOV) Equal Employment Opportunity and Affirmative Action (EEO/AA) Committee. This report provides an update on the status of diversity at George Mason University and constitutes a snapshot of the racial, gender, and ethnic diversity on campus rather than a snapshot of affirmative action efforts.

The term "diversity" is used in this report to describe the variety of students and employees at George Mason. The Northern Virginia and Washington, D.C., area is very diverse, and this report attempts to review whether George Mason reflects this diversity.

This report focuses on student enrollment and employee information for fall 2003.

The data in this report were drawn from the fall 2003 student and employee census files. The Office of Equity and Diversity Services gratefully acknowledges Mr. Kenneth Lee and Mr. Michael Wood of the Office of Institutional Research and Reporting (IRR) for their assistance in creating this report, and Ms. Michelle Meagher and Mr. Arash Habibzadeh for their invaluable assistance.

## National Enrollment Trends

According to U.S. Census reports, there has been a steady increase both in high school completions and college-university enrollments over the past 30 years. The proportion of white Americans between the ages 18 and 24 who complete high school has remained relatively steady. However, the proportion of black Americans between the ages of 18 and 24 who complete high school has steadily increased, from 60 percent in 1970 to 77 percent in 2000. The proportion of Hispanic Americans who complete high school has fluctuated from 58 percent in 1975 (the first year data was collected for Hispanic Americans) to 63 percent in 1985 and to 60 percent in 2000. Data for other racial-ethnic groups has not been consistently recorded by the U.S. Census and is therefore not included.

## Proportion of 18 to 24 Year Olds Who Have Completed High School U.S. Census Historical Data

|  | $\mathbf{1 9 7 0}$ | $\mathbf{1 9 7 5}$ | $\mathbf{1 9 8 0}$ | $\mathbf{1 9 8 5}$ | $\mathbf{1 9 9 0}$ | $\mathbf{1 9 9 5}$ | $\mathbf{2 0 0 0}$ |

| White | $81 \%$ | $83 \%$ | $83 \%$ | $84 \%$ | $82 \%$ | $82 \%$ | $82 \%$ |
| Black | $60 \%$ | $65 \%$ | $70 \%$ | $76 \%$ | $77 \%$ | $77 \%$ | $77 \%$ |
| Hispanic |  | $58 \%$ | $54 \%$ | $63 \%$ | $54 \%$ | $59 \%$ | $60 \%$ |

## Enrollment Statistics in Context

The counties considered to compose Northern Virginia (Arlington, Fairfax, Fauquier, Loudoun, and Prince William) and the City of Alexandria are very different from one another. Of these, Arlington and the City of Alexandria are the most diverse, with both having particularly large Hispanic populations (19 percent and 15 percent respectively), and with Alexandria having a large African American population (23 percent).

Although comparisons are difficult, the student population of George Mason University is not entirely different from that of its surrounding community.

## Race-Ethnic Distribution

Fall 2001 Enrollment and 2000 U.S. Census

|  | GMU Total | Virginia | Northern <br> Virginia | Fairfax <br> County |

| Indian | $0.4 \%$ | $0.3 \%$ | $0.3 \%$ | $0.3 \%$ |
| Other | $0 \%$ | $4 \%$ | $4 \%$ | $8.2 \%$ |

## Enrollment Statistics in Context

Among four-year, publicly funded universities in Virginia, George Mason University is one of the most diverse institutions, second only to Virginia Commonwealth University (VCU). Although onethird of these schools have larger African American populations, George Mason has the highest proportion of Asian American students in the state (16 percent), the highest proportion of Hispanic American students ( 7.1 percent), and is second only to VCU in its international population (8.3 percent at VCU, 3.8 percent at George Mason).

## Student Enrollment

## Current Status

In 2003-04, the student population at George Mason University increased by 5 percent or 1,452 students, the third largest one-year total since 1994-95. In that period, George Mason grew by 2,398 students, with the largest growth occurring in the university's nondegree students. The growth in fall 2003 occurred in the graduate degree rank (752 additional students) and the continued growth in the total minority students on campus.

The current growth has occurred primarily in the number of undergraduate and graduate degree-seeking students, with only minimal growth in the nondegree programs. Minority enrollments continue to hold steady. Of the 1,452 new students on campus, 24 percent of those were domestic students-of-color.

George Mason enrolled 7,817 domestic students who identified themselves as ethnic or racial minorities. Add to that the 1,430 nonresident international students who identify themselves as ethnic minorities and George Mason's ethnic and racial diversity climbs to 32.7 percent of the total student headcount. Asian American students continue to be the largest ethnic/racial group on campus.

## Trends

Since 1993, Mason's student population has grown by 32.6 percent or 6,946 students. This represents a 74 percent increase in minorities and a 22 percent increase in white students over the 10 -year time span. Also since 1993, Mason has grown by 450 full-time faculty members or 69 percent (665 in fall 1992 and 1,115 in fall2003); 454 part-time faculty members or 47 percent (1,027 in fall 1992 and 1,506 in fall 2003).

George Mason has become larger, more diverse, and able to offer a wide array of intellectual offerings to the citizens of the commonwealth.

As an example of this growth, in the fiscal year ending in June 1992 the university expended $\$ 16,861.00$ in grants and contracts. In comparison, in fiscal year 2002-03, which ended in June 2003, the university expended $\$ 59,861.00$ in grants and contracts, a 255 percent increase in monies received and expended through grants and contracts.

Student Enrollment for Fall 2003 and Fall 2002

In order to understand the true diversity of George Mason it is necessary to understand that it is an international university. Students represent 135 countries and bring a global perspective to the campus. Interactions between students help prepare American students for the future of the inevitable global society.

There are 1,769 nonresident international students on campus, up from 1,686 students in 2002. Interestingly, of these students 80.8 percent or 1,430 are students of color. Additional information about international students at George Mason may be found in the University Factbook under "Nonresident Aliens."

When the number of nonresident international students of color is added to the population of American minorities on campus, the actual ethnic and racial diversity of George Mason increases to 32.7 percent of the total student population. More plainly, one out of every three students at George Mason is a student of color.

The percentage of minority enrollment of international students of color actually decreased from the 2001-02 academic year when it was 82 percent of all international students. As of fall 2002, the percentage of international students of color is 80.8 percent. The greatest change continues to be in the enrollment of American students of color at George Mason.

## Student Gender Statistics

George Mason student gender statistics demonstrate that 56 percent of the overall student population is female. A review of gender statistics is essential because George Mason is one of the few Division IA NCAA schools in the country in compliance with Title IX of the 1972 Educational Amendments Act. Furthermore, George Mason reflects the national trend of decreasing enrollments for males at all levels.

## Undergraduate Degree-Seeking Students

Since fall 2002 the undergraduate headcount increased by a mere 428 students. In 1999, 30 percent of all degree-seeking undergraduate students were students of color. That figure dropped to 30 percent in fall 2001, and increased by 37 percent in 2002. Once again in fall 2002 there was an increase of 37 percent of degree-seeking students of color.

In 2003, African American students represent 8.5 percent of degree-seeking students at Mason, while Asian Americans represent 16.6 percent and Hispanic Americans represent 7.6 percent. White students represent 62.6 percent of George Mason's degree-seeking undergraduates.

Among African American undergraduate students, 44 percent are in the College of Arts and Sciences (CAS), 19 percent are in the School of Management (SOM), 11 percent are in the College of Nursing and Health Science, and 11 percent are in the School of Information Technology and Engineering (IT\&E). SOM, CAS, and IT\&E enroll 78 percent of all Asian students. CAS and SOM enroll 64 percent of all Hispanic Americans.

Note: There are no undergraduate programs in School of Computational Sciences (SCS), Institute for Conflict Analysis and Resolution (ICAR), School of Law (SOL), or School of Public Policy (SPP).

## Graduate Degree-Seeking Students

The graduate student population at George Mason is up significantly for the second year in a row and reflects national trends with regard to graduate enrollment. After two years of decline in degree-seeking graduate students (1999 and 2000), fall 2001 saw a 6 percent increase in graduate enrollment while fall 2002 saw a 13 percent jump. With significant growth in CAS (11 percent), Graduate School of Education (GSE) (17 percent) and SOM ( 25 percent), the graduate enrollment was generally up across the board. The exciting aspect of this growth, however, is that there was a 19 percent increase in enrollment of African Americans in these programs and a 9 percent increase in Asian Americans over fall 2001. Unlike 2001, the nonresident international student numbers remained stable in fall 2002. The largest number of graduate international students are in IT\&E.

GSE has the largest enrollments of African American and Hispanic American graduate students. IT\&E, by far, has the largest enrollment of Asian American graduate students. Finally, among Native American graduate students, while small numbers, the most popular school is IT\&E, which is a change from 2002.

Graduate Degree-Seeking Student Enrollment by School/College, Fall 2003

## Intercollegiate Athletes

This is the third year George Mason has reported information about intercollegiate athletics (ICA). George Mason is one of the small number of Division I schools to be in compliance with Title IX. These charts underscore the effort that ICA has put into recruitment of coaches, staff, and the student athletes; and demonstrates that the ICA administration is very sensitive to ensuring the balanced programs necessary for complying with Title IX.

On the ethnic and racial side, ICA is reflective of George Mason's student population. Students of color make up 23 percent of athletes, while 32.7 percent of the total student body is students of color. White students make up 72 percent of the population, while 75 percent of the studentathlete population is white. African Americans make up 8 percent of the overall student population, while 13 percent of the student athlete population is African American.

Ethnic Distribution
of Student-Athletes for Fall 2002

## Degree Recipients

George Mason granted 4,486 degrees in May 2003, down from 4,918 degrees in May 2001. Mason granted 2,816 baccalaureate degrees, 1,359 master's degrees, 106 doctoral degrees, and 205 law degrees. The total number of degrees granted was lower for the third year in a row from the high in 2000 when 5,045 degrees were granted.

In May 2003, George Mason granted 6 doctorates to African Americans and 7 to Asian Americans. The School of Law granted 16 degrees to persons of color, including 10 to Asian Americans.

Since 1998 George Mason has awarded 31 doctoral degrees to African Americans, 28 doctoral degrees to Asian Americans, and 3 to Hispanic Americans.

## Degrees Conferred in 2002-03

- 460 African Americans received degrees: 301 baccalaureates, 152 master's, 6 doctoral, and 1 law degree. This is an increase in the number of degrees conferred in May 2001 by 29 degrees.
- 665 Asian Americans received degrees: 543 baccalaureates, 106 master's, 7 doctoral, and 10 law degrees.
- 298 Hispanic Americans received degrees: 246 baccalaureates, 44 master's degrees, and 5 law degrees.
- 15 Native Americans received degrees: 11 baccalaureates and 4 master's.

Translated into percentages, African
Americans received 10 percent of the degrees awarded; Asian Americans, 15 percent; Hispanic Americans, 6 percent; and Native Americans, 3 percent. Whites accounted for 76 percent of all degrees awarded.

## Personnel

Fall 2003 presented a mixed picture for employees of color at Mason. The number of employees grew by 350 since fall 2002. Employees of color comprise 16 percent of Mason's workforce, up 1 percent from last year. Since 1989, Mason has seen a growth in its workforce of 78 percent (1,548 employees since 1989). The majority of that change has been in the instructional faculty ranks (101 percent or 1,015 employees).

In addition, since 1989, the representation of employees of color has also increased by 170 percent (from 228 to 616 employees). Growth in the population of employees of color is in the right direction but is outpaced by the diversity of the student population.

Since fall 2002, Mason has increased its African American employee population by 13 percent. Similarly, the Asian American population has increased 14 percent, and the Hispanic American population increased by 15 percent, with extraordinarily large gains since 1989 (138 percent, 320 percent, and 204 percent respectively).

## Faculty

Full-time instructional faculty grew by 53 positions in fall 2003. Of those 53 new instructional faculty, 41 are of color. There are a total 176 instructors of color at George Mason. Prior to this year there was virtually no growth in the ranks of instructional faculty of color since 1999. The largest group is Asian Americans with 106 faculty, followed by 43 African Americans, 26 Hispanic Americans, and 1 Native American.

The largest increase in the faculty has been in the assistant professor ranks, with a 25 person increase over fall 2002.

Overall, 46 percent of the full-time faculty at George Mason is tenured. This has not changed since fall 2002. The following analyzes tenured faculty by race:

| 48 percent | White |
| :--- | :--- |
| 47 percent | Hispanic Americans |
| 35 percent | African Americans |
| 46 percent | Asian Americans |

## Employee Gender

George Mason hired 33 more full-time and 116 part-time female instructional faculty members for fall 2003. This is compared to 20 full-time and 61 part-time male faculty members. Since 2002 George Mason has hired 25 paraprofessional females and doubled the number of women in the skilled crafts from 3 in fall 2002 to 6 in fall 2003. Mason will continue to hire more female skilled craft personnel for the remainder of 2003-04. Overall, females comprise 46.4 percent of George Mason's workforce.

## Glossary Terms

Assistant professor
Diversity

FTE
Instructor

Nonresident
international students
Lower division students
Upper division students
Undeclared students

Tenured faculty

Tenured track faculty

Term faculty

Instructional faculty member who holds the terminal degree in the discipline and gives promise of excellent teaching and scholarship.
In the context of this report, "diversity" means variety.
A simple count of the total number of students on campus. It does not take into account the number of hours that a student is taking but deals with the concepts of full time and part time. Full time is 12 credit hours or more in any given semester. Part time is less than 12 credit hours in any given semester.
The abbreviation stands for Full Time Equivalency. This analysis is done on the basis of credit hours averaged.
Instructional faculty member who holds a master's degree or equivalent academic or professional qualifications and gives promise of excellent teaching.
These students are not U.S. citizens. Students in the United States on visa are also called nonresident aliens.
Freshmen and sophomores.
Juniors and seniors.
Students, usually freshmen and sophomores, who have not declared a major field of study.
In accordance with the Faculty Handbook, tenured faculty are instructional faculty appointed without term.
An appointment of instructional faculty for a fixed term in which service is applied for consideration of tenure.
An appointment of instructional faculty for full-time employment for a fixed term in which service is NOT applied for consideration of tenure (previously known as restricted faculty).
